Cavomit Holo@Flexo K-500X2

Cavomit presents a Pack-To-Pack machine suitable for hot-stamping, hologram registration and embossing on multi-use computer paper. The machine is manufactured with two printing head, takes multi-use computer paper of all dimensions and can hot-stamp an area of 30X40mm. It can also print **holograms** with dimensions 30X40 mm.

Printing capability: **5.000** prints per hour.

The electric board of the machine is manufactured with the most advanced electronic systems and has a touch screen for the simple and easy programming of all the systems.

The machine has one tractor which is connected to a high-tech servomotor for the precise programming of the step of the multi-use computer paper.

The machine has a compressed air system which allows the regulation of the piston pressure with high accuracy.

**Technical specifications
Cavomit Holo@Flexo K-500X2**

Operation / impression	Automatic - Manual
Average productivity	5.000 prints per hour
Max web width	500 mm
Min / max document size	1 inch - 99 inches along web
Hot-plate specifications	One zone, 1 resistance 200W X2
Temperature regulation	TC Panel
Die thickness	6.35 to 7.00mm
Total voltage	Max. 1500W, 7 Amp. X2
Capacity - resistances	200 W X2
Connection voltage	380/460V, 50/60Hz
Independent stepper motors	Various programmes
Independent servo motors	Normal mode / Hologram mode
Max external foil diameter	120 mm on 1" (25mm) core
Max external used foil diameter	120 mm on 1" (25mm) core
Hologram registration tolerance	Max +/-0.2 non-accumulative
Dimensions of Holo@Flexo K-500X1	165 x 170 x 100 cm
